

# Where are England's Main Urban Areas?

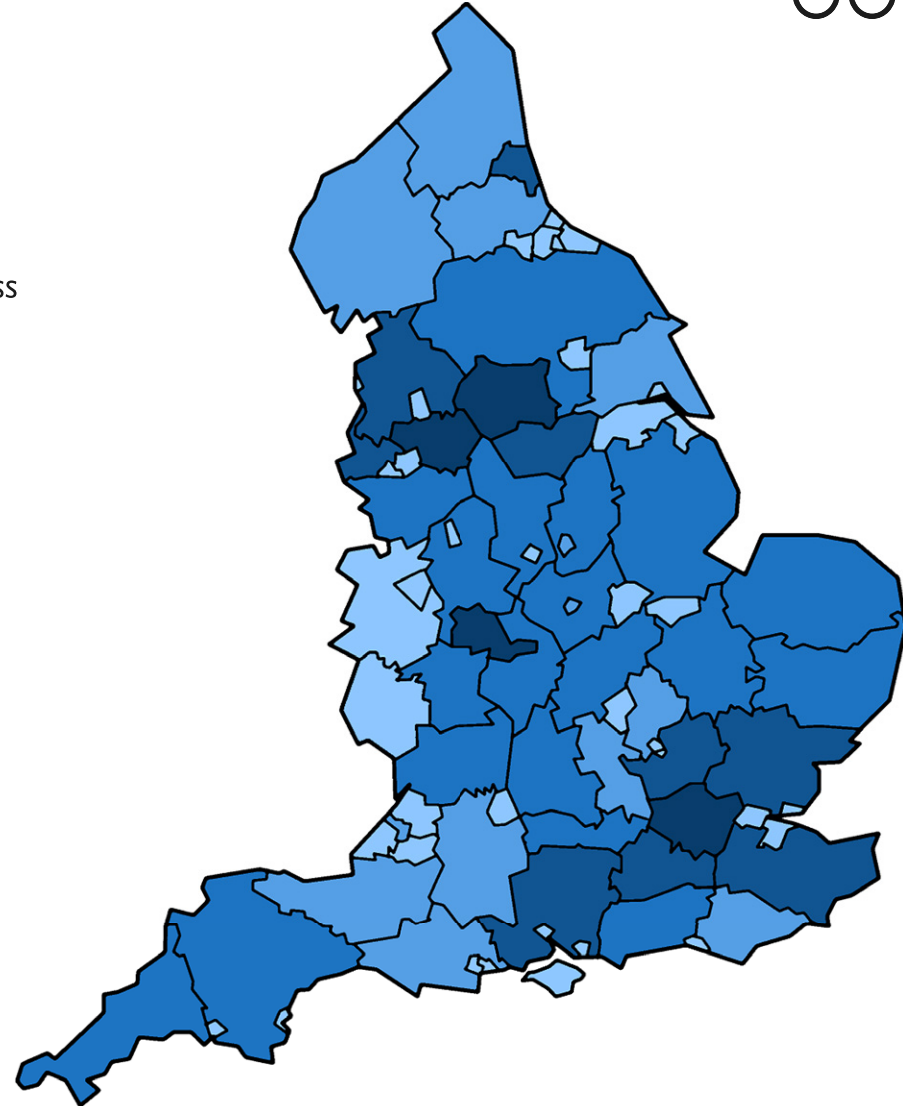

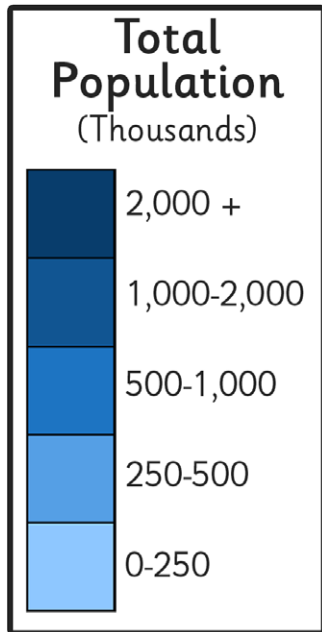

Identify the areas with the largest populations.

Use your atlas to label the following cities:

Birmingham, Liverpool, London, Manchester and Newcastle.

Next, find the areas with the smallest populations.

Can you use your atlas to explain why each of these areas might be less populated?

# Where are England's Main Urban Areas?

Identify the areas with the largest populations.

Use your atlas to find out the major city within each area.  
Label the city carefully on your map.

Now find the areas with the smallest populations.  
Can you use your atlas to explain why each of these areas might be less populated?
